

## Eden Valley Mining Road Construction and Maintenance Services

---

### Location

Eton, Queensland

### Client

Eden Valley Mining Pty Ltd

### Contract Value

\$5M

### Commencement Date

1995

### Completion Date

2014

---

Burdekin Haulage has been contracted to provide road construction and maintenance services over a 32km road formation and another 28km road formation annually. These roads consist of up to thirty creek crossings including the Diamantina River, where roads are continually degraded as a result of flooding.

### Project Scope

This ongoing maintenance project involves gravel re-sheeting, surface formation grading, rock protection and flood mitigation to provide clear and comfortable access to the mine by heavy haulage vehicles.

### Outcomes

Burdekin Haulage has been contracted continually for over 19 years to Eden Valley Mining, providing a consistent, quality and cost effective road maintenance and construction service.
